Albania

Keng Piao (耿飚), Chinese Ambassador to Albania:

The two parties, two governments and two peoples of China and Albania have always been close comrades-in-arms who support each other and learn from each other in the struggle against imperialism, revisionism and the reactionaries of various countries and in the cause of the socialist revolution and socialist construction. Through this exhibition, the revolutionary friendship and militant unity between our two parties, two governments and two peoples based on Marxism-Leninism have been further strengthened.

To express the fraternal friendship of the Communist Party of China, the Chinese government and the Chinese people for the Albanian Party of Labor, the Albanian government and the Albanian people as well as the desire to learn from each other and to exchange experience. I am authorized today to present, on behalf of the Communist Party of China and the Chinese government, the building of "the exhibition on the successes in socialist construction of the People's Republic of China" and its exhibits as a gift to the Albanian Party of Labor and the government of People's Republic of Albania.

The heroic Albanian people have achieved brilliant successes in the socialist revolution and socialist construction in the past 25 years. We are convinced that under the wise leadership of the Albanian Party of Labor headed by the great Marxist-Leninist comrade Enver Hoxha and by relying on your own efforts, you will certainly achieve greater successes and build Albania into a more powerful country so that this great beacon of socialism in Europe will shine ever more brightly.

Cambodia

New China News Agency:

The New China News Agency is hereby authorized to state the following: The rumors which appeared in Phnom Penh are complete fabrications created with ulterior motives. When Premier Chou En-lai received Nay Valentin, Ambassador of the Kingdom of Cambodia to China, in the early hours of March 15, he pointed this out and expressed uneasiness and regret at the incident that had taken place in Phnom Penh. Ambassador Nay Valentin stated that the Embassy of the Kingdom of Cambodia in China and the Embassy staff in Peking are perfectly safe.

China and Cambodia are two countries friendly to each other. The Chinese government and people have always respected and supported the policy of peace, independence, non-alignment and maintenance of territorial integrity as upheld by Samdech Sihanouk, Head of State of Cambodia. All attempts to sabotage the friendly relations between the peoples of China and Cambodia will be of no avail.

Kuo Mo-jo (郭沫若), Honorary President of China-Japan Friendship Association:

The recent coup d'etat in Cambodia directed against Head of State Samdech Norodom Sihanouk is a component part of the US imperialist plot to expand war in Indo-China and carry out aggression against the countries in Indo-China.

New China News Agency:

The coup d'etat staged on March 18 by the Cambodian right-wing clique against Samdech Norodom Sihanouk, Head of State of Cambodia, was engineered by US imperialism behind the scenes. Although the vicious and crafty Nixon administration maintained a profound silence on the coup to avoid condemnation by the world public opinion, it has shown its cloven hoof.

("US Imperialism Instigates Cambodian Rightists To Stage Coup with Purpose of Expanding US War of Aggression in Indo-China," NCNA-English, Peking, March 28, 1970--SCMP 70-14 [4630]/36-37)

*

New China News Agency:

The coup d'etat directed against Cambodian Head of State Samdech Norodom Sihanouk, which was stage by the Cambodian right-wing group under the instigation of US imperialism, has aroused dissatisfaction and resistance among increasing numbers of Cambodian people. To extricate itself from this impasse, the Cambodian right-wing group has instructed its hirelings to spread rumors. It has to resort to spreading rumors to keep itself going.

...The Chinese Foreign Ministry has never told Nay Valentin that China "was 'embarrassed' by the presence of Prince Norodom Sihanouk in China." That was a sheer rumor spread with ulterior motives. In the light of the difficulties besetting the Cambodian right-wing group, one may see that it is not accidental for Trinh Hoan, a so-called "deputy" of the Cambodian "National Assembly," to spread such a rumor to an American correspondent. The rumor was entirely and deliberately fabricated by the Cambodian right-wing group under the instigation of US imperialism. It was obviously aimed at driving a wedge between China and Cambodian Head of State Samdech Norodom Sihanouk, undermining the profound friendship between the Chinese people and the Cambodian people and diverting people's attention in an attempt to extricate the right-wing group from its predicament. But all this will be to no avail. The solemn stand taken by the Chinese people in support of Cambodian Head of State Samdech Norodom Sihanouk is well-known. Nobody can undermine the profound friendship between the Chinese people and the Cambodian people. Rumor-mongering will only serve to expose still further the ignominious features of the Cambodian right-wing group.

("Futile Attempt by Cambodian Right-Wing Group To Drive Wedge Between China and Cambodian Head of State Samdech Norodom Sihanouk," NCNA-English, Peking, March 30, 1970--SCMP 70-14 [4631]/98-99)

Canada

New China News Agency:

The progressives among the masses of the Canadian people are eagerly and enthusiastically studying and applying the invincible Marxism-Leninism-Mao Tsetung thought. This is a great event of fundamental importance in the Canadian people's revolutionary struggle in the recent years. The Canadian people are experiencing a new awakening....

The Canadian revolutionaries are studying and publicizing Mao Tsetung thought with great enthusiasm. Many of them wage struggle to disseminate Mao Tsetung thought despite the danger of being dismissed, laid off or even arrested....

At present, many progressive bookstores publicizing Marxism-Leninism-Mao Tsetung thought have been set up in Montreal, Ottawa, Vancouver, Nova Scotia, Toronto, Winnipeg, Regina and other main Canadian cities....

The revolutionary Canadian students play a vanguard role or serve as a link with the masses in disseminating Mao Tsetung thought. Revolutionary student organizations have been set up and revolutionary periodicals published one after another in some well-known Canadian universities. Quotations from Chairman Mao were often printed and Chairman Mao's works introduced in these periodicals....

The new awakening of the Canadian people portends that the revolutionary storm of the Canadian people will become more and more violent and that the day will soon come when US imperialism has to scamper out of Canada.

India

Jen-min Jih-pao Commentary:

The swift and vigorous development of the Indian peasant armed struggle has struck great terror into the hearts of the reactionary Indian authorities. In order to prop up its tottering reactionary rule, the reactionary Indian government headed by Indira Gandhi is intensifying its suppression of the peasants' revolutionary armed forces and the revolutionary Indian people....

The reactionary Indian government is trying vainly to stamp out the peasant armed forces, but contrary to its reactionary wishful thinking, the fact is that the more the reactionaries resort to frantic suppression, the stronger the resistance of the people. The Indian peasant armed forces cannot be vanquished nor be wiped out, but on the contrary will become ever stauncher and more powerful as they are steeled in their counter-attacks against the "encirclement and suppression" and "mopping-up operations" by the reactionary police.

The reactionary Indian government headed by Indira Gandhi in its external policy hires itself out to US imperialism and social-imperialism and lives on their alms, getting itself head over heels in foreign debt. At home, it steps up its oppression and exploitation of the people, sucking their life-blood. Riddled with financial and economic crises, it has rendered large number of workers jobless, and plunged the broad masses of Indian peasants and city poor into worse and worse impoverishment. The class contradictions in India are becoming unprecedentedly acute and the dogfight for power within the Indian reactionary ruling clique is also becoming fiercer and fiercer. Beset with difficulties at home and abroad, confronted with countless contradictions and crises and finding itself in an impasse, the reactionary Indian government is sitting on thorns. Everywhere throughout India is full of highly inflammable material and the raging flames of the peasant armed struggle will certainly leap higher and higher. So long as the Indian revolutionary people unswervingly take the road of seizing political power by armed force, they will certainly win nationwide victory in revolution through a long-term struggle.

Israel (Palestine)

Jen-min Jih-pao Commentary:

We Chinese people resolutely support the Palestinian people's just struggle and are convinced that the Palestinian armed forces will certainly strengthen their unity, persevere in their armed struggle, deal heavier blows at the US-Israeli aggressors and, together with the entire Arab people, carry the national liberation struggle through to the end.

("The Armed Struggle of the Palestinian People Is Forging Ahead in Victory," Jen-min Jih-pao, January 7, 1970--SCMP 70-02 [4576]/92-93)

*

Chou En-lai:

The Chinese people are greatly concerned for the struggle of the people of the UAR, Palestine and other Arab countries and are indignant at the US and Israeli clamors for aggression and their war provocations. The struggle against aggression you are now waging is an important part of the struggle of the people of the whole world against imperialism and for national liberation. Your struggle is just. Although this struggle is very arduous, I believe that through protracted struggle, the Arab people will certainly overcome all kinds of difficulties, defeat the US and Israeli aggressors and win final victory.

The Chinese people and government firmly support your struggle. Your Excellency Mr. President, I would like to take this opportunity to reiterate to you that in the common struggle against imperialism, the Chinese people will forever remain the most reliable friend of the people of the UAR, Palestine and other Arab countries.

("Premier Chou En-lai's Letter to President Nasser," NCNA-English, Peking, February 2, 1970--SCMP 70-06 [4595]/103-104)

*

Chi P'eng-fei (姬鵬飞), Vice Minister of Foreign Affairs:

The Arab people's struggle against aggression is an important component of the struggle of the people of the whole world against imperialism and for national liberation. The Chinese government and people firmly support the people of the Arab countries in their righteous struggle against US imperialism and Israeli Zionism. The Chinese people are always the most reliable friends of the Arab people on their road of advance in the struggle against imperialism.

Jen-min Jih-pao Commentary:

The Chinese people express their utmost indignation at the barbarous crimes of aggression committed by US imperialism and the Israeli Zionists, and express their deepest sympathy with and most resolute support for the UAR people and the people of other Arab countries who are waging a heroic struggle against the US-Israeli aggressors....

It is crystal clear that Israel dare commit such flagrant aggressions and provocations against the Arab countries is entirely due to the behind-the-scene manipulation by US imperialism....US imperialism is the arch criminal who engineered the crime of bombing the Cairo iron and steel plant and other bloody crimes. The workers and the broad masses of various Arab countries will rise up and settle accounts with US imperialism and its lackey Israel for their barbarous crimes and dun for payment of numerous debts in blood from them!

...The Arab people should cherish no illusions of the United States which fosters Israel. The Arab people have become more and more aware that only by taking up arms and waging an unyielding struggle against the aggression of US imperialism and its lackeys can they succeed in driving away all the aggressors, recovering the occupied land and liberating their trampled homeland.

The 700 million Chinese people firmly stand on the side of the Arab people and resolutely support them to carry their sacred struggle against aggression through to the end. We are firmly convinced that so long as the Arab people unite and persist in their struggle, they will surely overcome various difficulties, smash every plot of imperialism and win final victory in their struggle against aggression.

("The Arab People Will Settle Blood Accounts with the US and Israeli Aggressors," Jen-min Jih-pao, February 20, 1970--SCMP 70-09 [4606]/33-34)

*

Chi P'eng-fei:

US imperialism, while continuing to play the scheme of "political solution," has been making intensified efforts to arm Israeli Zionism and supporting Israel in launching fresh military attacks on Arab countries. Recently, Israeli Zionism has become most rampant and has bombed even more rabidly the industrial sites and residential areas of the UAR and other Arab countries. The series of new crimes of aggression committed by the United

States and Israel have roused the deep indignation of the people of the Arab countries and further strengthened their resolve to fight to the end with common hatred against the enemy.

The Chinese government and people have consistently supported the just struggle of the people of Palestine and the Arab countries....We believe that so long as the people of Palestine and the Arab countries unite as one, heighten their vigilance and persevere in armed struggle, they will certainly overcome all difficulties on their road of advance and win final victory.

("Moroccan Embassy in China Gives National Day Reception," NCNA-English, Peking, March 3, 1970--SCMP 70-10 [4612]/55-56)

*

Jen-min Jih-pao Commentary:

Of late, US imperialism and its lackey, Israel, have been hatching a new criminal scheme to drive out 300,000 Palestinian people living in the Gaza Strip to the west bank of the Jordon River. This new crime of aggression by US imperialism and Israeli Zionism has aroused strong opposition and indignant condemnation from the Palestinian and other Arab peoples. The Chinese people sternly condemn this venomous criminal scheme of the US-Israeli aggressors, and resolutely support the just struggle of the Palestinian and other Arab peoples against the US-Israeli aggressors.

("New Criminal Scheme of US-Israeli Aggressors," Jen-min Jih-pao, March 20, 1970--SCMP 70-13 [4625]/34-35)

Li Hsien-nien (李先念), Vice Premier:

Your struggle has set a heroic example for the people of all Arab countries and opened a new chapter in the annals of the struggle of the Middle East people against imperialism. The Palestine National Liberation Movement led by Chairman Yasser Arafat has persevered in armed struggle, united with other anti-imperialist armed organizations of Palestine and dealt repeated blows at the enemy, thereby playing an active role in promoting the liberation cause of Palestine. Your struggles have won praise and admiration from the Chinese government and people.

Recently Nixon kept clamoring that the United States would continue to occupy the Middle East, continue to arm Israel and continue to commit aggression against the Arab countries in the 1970's. Only a few days ago, US imperialism instigated Israel to drive the 300,000 Palestinian people out of the Gaza Strip in a vain effort to perpetuate Israel's occupation of this Arab land. This is a new step taken by US imperialism in attempting to strangle the revolutionary struggle of the Palestinian people, and a new crime committed by US imperialism. The Palestinian people and the people of the Arab countries will never tolerate it.

...Protracted struggles have made the Palestinian people and the people of the Arab countries understand ever better that perseverance in people's armed struggle is the correct road for them to defeat the aggressors and win national liberation and that only through armed struggle is it possible for them to defeat the US imperialist and Israeli aggressors, recover their lost territory, and achieve real independence and liberation. No matter what tactics the US imperialists may employ, they will not be able to prevent the people of the Arab countries and the Palestinian people from winning final victory in the struggle against imperialism.

The Chinese government and people have consistently opposed any imperialist aggression against the Middle East countries, opposed the decision of the destiny of the Arab people by the imperialist-controlled United Nations, and firmly supported the just struggle of the Palestinian people and the people of the Arab countries. The Chinese people will always remain the most reliable friends of the Palestinian people and the people of all Arab countries. We firmly believe that so long as you are united as one, heighten your vigilance and persist in armed struggle, you will certainly overcome difficulties and win final victory.

Li Hsien-nien:

Chairman Arafat is leading the Palestinian people in their valiant struggle against the Israeli aggressors who are backed by US imperialism. While he is busy with all kinds of work, he is leading a delegation to pay a visit to China and has received warm welcome from our government and people. This visit has made an important contribution to promoting the mutual understanding and militant friendship between us.

At present, the flames of revolution of the Arab people's struggle against imperialism are raging. Your struggle has gained ever greater sympathy and support from the people of all countries. US imperialism, good at playing counterrevolutionary dual tactics, invariably resorts to political deception when it fails in military aggression. But no matter whether imperialism resorts to military threats or political deception, its plots are doomed to fail in the face of the heroic Palestinian people and the people of the Arab countries. We are convinced that as long as the Palestinian people and the people of the Arab countries strengthen their unity, heighten their vigilance and persevere in struggle, they will certainly defeat the US imperialist aggression and Zionism and win final victory!

Japan

New China News Agency:

The large-scale just patriotic struggle launched by the Japanese people against US imperialism surged ashead wave upon wave in the 1960's, pounding violently at the criminal rule of the US and Japanese reactionaries....

The tempestuous waves of the just patriotic anti-US struggle mark the daily awakening of the Japanese people who have neither submitted to the fascist suppression by the US-Japanese reactionaries nor been deceived by them politically. More and more Japanese revolutionary people have seen through the fallacy of "parliamentary road" wantonly advocated by modern revisionism and the Japanese Miyamoto revisionist clique. The Japanese proletarian revolutionaries and the broad revolutionary people have risen up to rebel against the Miyamoto revisionist clique and many revolutionary organizations have been successively set up. They are determined to use Marxism-Leninism-Mao Tsetung thought as the weapon and integrate it energetically with the concrete practice of the Japanese revolution to strive for victory in the Japanese revolution.

The great leader of the Chinese people Chairman Mao pointed out six years ago: "Japan is a great nation. It will certainly not allow US imperialism to ride roughshod over it for long. The last few years have seen the constant broadening of the patriotic united front of all strata of the Japanese people against US imperialist aggression, oppression and control. This is the surest guarantee of victory in their patriotic struggle against US imperialism. The Chinese people are convinced that the Japanese people will be able to drive the US imperialists from their soil and realize their aspirations for independence, democracy, peace and neutrality."

History has eloquently testified and will continue to testify to the correctness of this wise thesis of Chairman Mao's. The Japanese people have stepped into the great 1970's with militant strides. A still greater anti-US storm will assuredly sweep the whole of Japan and deal still heavier blows at the US-Japanese reactionaries.

New China News Agency:

While reviving militarism and expanding its arms in preparation for war, the reactionary Sato government of Japan is showing more clearly its aggressive designs to grab China's sacred territory of Taiwan....

The Chinese people are determined to liberate Taiwan. The criminal schemes of the reactionary Sato government, with US imperialism backing it up, to step up the revival of militarism, carry out unbridled aggressive expansion and annex China's territory Taiwan can never succeed.

("Reactionary Japanese Brass Plotting in Taiwan," NCNA-English, Peking, February 4, 1970--SCMP 70-06 [4596]/130-131)

Kuo Mo-jo (郭沫若), Honorary President of China-Japan Friendship Association:

China and Japan are close neighbors and the Chinese and Japanese peoples have a long history of peaceful and friendly relations. We hope that these friendly relations will be carried forward from generation to generation.

Contrary to the common aspirations of the Chinese and Japanese peoples for peace and friendship, the reactionary Japanese rulers have stubbornly pursued a policy of following ever more closely behind US imperialism and of hostility toward the Chinese people. They have placed one obstacle after another in the way of the normalization of the relations between China and Japan. When he visited the US in November 1969, Japanese Prime Minister Eisaku Sato issued a joint communique with US President Richard Nixon, advancing the military collusion between Japan and the US to a new stage. The "reversion of Okinawa" to Japan trumpeted by the US and Japanese reactionaries is a downright fraud. Nominally it was Nixon who promised to return to Japan the US base for aggression Okinawa, but, in fact, it was Sato who promised to turn the whole of Japan into Okinawa, into a US base for aggression. Fostered by US imperialism, Japanese militarist forces are being revived at an accelerated pace.

The Japan-US joint communique asserted brazenly that the Taiwan area was "a most important factor for the security of Japan," that Korea "was essential to Japan's own security" and that Japan wanted to play a "role" in bringing about so-called "stability" in the Indo-China area. These few words revealed the attempt of the US and Japanese reactionaries to obstruct the Chinese people from liberating their own territory Taiwan province, obstruct the Korean people from reunifying their motherland and obstruct the Vietnamese people from winning final victory in their war against US aggression and for national salvation. All this is aimed at realizing their ambitions of annexing Taiwan, grabbing Korea and coming in for a share in the Indo-China area. The recent coup d'etat in Cambodia directed against Head of State Samdech Norodom Sihanouk is a component part of the US imperialist plot to expand war in Indo-China and carry out aggression against the countries in Indo-China. The people of China, Korea, Vietnam, the Laos, Cambodia and other Asian countries, who have suffered acutely from the aggression perpetrated by the US and Japanese reactionaries, have bitter experience in common. Faced with this new situation, the people of China and Japan, the countries in Indo-China and other Asian countries must further

strengthen their unity and carry out resolute struggles so as to deal crushing blows to the US and Japanese reactionaries for their new scheme of aggression in Asia.

Undoubtedly, the new military collusion between Japan and the US will inevitably bring fresh, tremendous calamities to the Japanese people. At the same time, it will inevitably worsen the relations between China and Japan. The Chinese people's great leader Chairman Mao teaches us: "Japan is a great nation. It will certainly not allow US imperialism to ride roughshod over it for long." "The Japanese people will be able to drive the US imperialists from their soil and realize their aspirations for independence, democracy, peace and neutrality." We are convinced that it is the Japanese people, not the US-Japanese reactionaries, who decide Japan's destiny.

The desire of the people of China and Japan for peace and friendship reflects the general trend and popular feelings. Nobody will be able to hold back this great trend of our time.

Chinese Embassy in Kenya:

At 02:30 hours in the early morning of February 11, 1970, the news picture display cases of the Embassy of the People's Republic of China were completely destroyed by an explosion, the wall of the Embassy damaged and window panes in the premises seriously damaged....

The Chinese Embassy cannot but regard this as a grave political incident deliberately undermining the friendly relations between China and Kenya, for which the Kenya government bears the unshirkable responsibility.

The Chinese Embassy demands in all seriousness that the Kenya government severely punish the culprit and take effective measures to ensure the safety of the personnel and premises of the Chinese Embassy and guarantee against the recurrence of similar incidents in the future.

Laos

Lin Piao, Minister of National Defense:

Under the leadership of the Laotian Patriotic Front, the heroic people, People's Liberation Army and other patriotic armed forces of Laos have persisted in protracted armed struggle and dealt heavy blows to the US aggressors and their lackeys. The great victories of the Laotian people in their revolutionary struggle have contributed to the struggles against US imperialism of the revolutionary people throughout the world....

The Chinese and Laotian peoples and their armed forces are close brothers and comrades-in-arms. The Chinese people armed with Marxism-Leninism-Mao Tsetung thought provide powerful backing for the Laotian people. We will firmly support the revolutionary struggle of the patriotic Laotian armed forces and people till they achieve the liberation of the entire nation.

Jen-min Jih-pao Commentator:

Of late, US imperialism has been vigorously expanding its war of aggression against Laos....On the question of Laos, US imperialism has also paid lip-service to "respecting neutrality" and "seeking for peace." In reality it has never ceased carrying out but has become even more and more flagrant and unscrupulous in its armed intervention and military aggression against Laos. The Nixon administration has intensified the war of aggression against Laos as an important measure to coordinate with the so-called "Vietnamization" of its war of aggression against Vietnam and as an important part of the US imperialist criminal scheme of aggression against the whole of Indo-China.

...Now it is expanding its war of aggression in Laos. This will only lead to the further tightening of the noose round its own neck. The Thai reactionaries, acting as a pawn of US imperialism, will only end up in the same grave as the US aggressors. The Laotian rightists, who are serving as a cat's-paw for and closely following the war chariot of the US aggressors, will also come to no good end.

During the protracted struggle against imperialist aggression, the Chinese and Laotian people have always supported each other. Armed with Mao Tsetung thought and tempered in the great proletarian cultural revolution, the Chinese people will as always firmly support the Laotian patriotic armed forces and firmly support them to carry their war against US aggression and for national salvation through to the end. We are convinced that so long as the Laotian people strengthen their unity and persist in a protracted war,

they will certainly smash every scheme of US imperialism and its lackeys and win final victory in their war against aggression.

Chinese Foreign Ministry's Statement:

On March 21, 1970, the spokesman of the Central Committee of the Laotian Patriotic Front issued a statement, strongly condemning the criminal acts of US imperialism stepping up the expansion of its war of aggression against Laos and of the reactionary authorities of Thailand flagrantly sending more accomplice troops into Laos in the service of the United States. The Chinese government and people firmly support this just statement of the Laotian Patriotic Front.

While intensifying its wanton bombing of Laotian territory, US imperialism has ceaselessly introduced Thai accomplice troops into the battlefield of its war of aggression against Laos to step up attacks on the Laotian people's liberated areas in coordination with the Laotian rightist troops. This is a grave military adventure and war escalation. US imperialism has already suffered disastrous defeat in its war of aggression against Vietnam. The Nixon government is now resorting to the intensification of its war of aggression against Laos as an important measure to coordinate with the "Vietnamization" of its war of aggression against Vietnam. This is an important component of its criminal scheme in nakedly intensifying its aggression and intervention in Indo-China. The numerous crimes committed by US imperialism in Laos and the rest of Indo-China fully prove that it will never change its aggressive nature and designs. US imperialism is the root cause of all aggression, intervention and subversion in Indo-China and the implacable enemy of the Indo-Chinese peoples.

The Chinese government and people are closely watching the development of the whole series of grave events in which US imperialism is stepping up intervention and the expansion of its war of aggression in Laos, Cambodia and other parts of Southeast Asia. Laos is China's close neighbor. Sharing weal and woe, the Chinese and Laotian peoples have common interests, and the Chinese people absolutely will not sit idly by while US imperialism acts wantonly in Laos. Serving as willing accomplice of US imperialism, the reactionary authorities of Thailand will definitely come to no good end either. The Chinese government and people will, as always, firmly support the Laotian people in their just struggle against the invasion of Laos by US imperialism and the reactionaries of Thailand and firmly support them in carrying to the end the war against US aggression and for national salvation.

Latin America

New China News Agency:

Latin American people have launched an offensive of growing intensity against US imperialism and its lackeys over the past decade. Their revolutionary struggle, converging into a mighty torrent with that of the people of Asia, Africa and other parts of the world, pounded vigorously at US imperialism.

Our great teacher Chairman Mao pointed out more than 20 years ago: "The peoples of Latin America are not slaves obedient to US imperialism." Facts have fully testified to this wise thesis of Chairman Mao's. The 1960's witnessed an unprecedented awakening of the Latin American people who have come to realize more and more keenly that only by overthrowing the criminal rule of US imperialism and its lackeys can they achieve complete national emancipation. The storm of the Latin American people's anti-US struggle in the past ten years was unprecedented in its ferocity, scale and duration. Battered by the tidal waves of this revolutionary struggle, the counter-revolutionary rule of US imperialism in Latin America which it regarded as "solid" is crumbling. The flames of revolution are raging everywhere in this so-called tranquil "backyard" of US imperialism. The press of the US monopoly capitalist class shouted in alarm that "the entire subcontinent is in a state of ferment" and that Nixon "is sitting on a time bomb in Latin America."

.... In the revolutionary mass movement, the Latin American revolutionaries have swept away the obstacles put by the revisionists, smashed their criminal schemes against the people's movement and thereby pushed the revolutionary struggle steadily forward. In their fierce struggle against revisionism, they have set up more than ten Marxist-Leninist parties and organizations which have steadily grown in the course of integrating Marxism-Leninism with the concrete practice of the revolution in their own countries. At the same time, they have gradually realized that only by opposing counterrevolutionary armed force with revolutionary armed force can they completely overthrow the reactionary rule of US imperialism and its lackeys. They have made energetic efforts to grasp the great truth that "political power grows out of the barrel of a gun" and firmly repudiated "peaceful transition," "parliamentary road" and various other fallacies spread by the modern revisionists in an attempt to undermine their armed struggle.

The great leader Chairman Mao issued the "Statement Supporting the Panamanian People's Just Patriotic Struggle Against US Imperialism" in 1964 and the "Statement Supporting the Dominican People's Resistance to US Armed Aggression" in 1965. In the 1964 statement, Chairman Mao said: "Riding roughshod everywhere, US imperialism has made itself the enemy of the people of the world and has increasingly isolated itself. Those who refuse to be enslaved will never be cowed by the atom bombs and hydrogen bombs in the hands of the US imperialists. The raging tide of the people of the world against the US aggressors is irresistible. Their struggle against US imperialism and its lackeys will assuredly win still greater victories."

These statements of Chairman Mao have greatly inspired the Latin American people in their revolutionary struggle in the 1960's. It can be said with certainty that the heroic Latin American people will raise a still fiercer storm of revolution in the 1970's.

Since he personally assumed control of state affairs, His Majesty King Mahendra has firmly adhered to a policy of friendship with China and has made important contributions to the development of Sino-Nepalese friendship and the relations of friendly cooperation between the two countries. Kuo Mo-jo:

China and Nepal have been friendly neighbors since ancient times. The friendship between our two peoples has a long history and broad prospects. In the past 20 years, Sino-Nepalese friendship has entered a new stage of development. Particularly since His Majesty King Mahendra personally assumed control of state affairs, greater progress has been made in the friendship between the two countries.

Facts have proved that the friendship between the Chinese and Nepalese peoples can stand the test of time and no outside force can ever undermine it. We are deeply convinced that with the joint efforts of our two sides, Sino-Nepalese friendship will be increasingly consolidated and strengthened.

...Our Nepalese friends can rest assured that in your just struggle to safeguard national independence and state sovereignty, the Chinese people will forever remain your reliable friends.

The Chinese government and people have consistently held that the principles guiding the establishment and development of relations between countries are the five principles of mutual respect for territorial integrity and sovereignty, mutual non-aggression, non-interference in each other's internal affairs, equality and mutual benefit, and peaceful coexistence. We are very glad to note that in their relations China and Nepal have always shown mutual respect and mutual understanding and lived together in amity. Pakistan

Kuo Mo-jo, Vice Chairman, NPC Standing Committee:

China and Pakistan are friendly neighbors. There exists a profound traditional friendship between our two peoples. Although the social systems of our two countries are different, in our relations, we respect each other and refrain from interfering in each other's international affairs; in the struggle against imperialism and revisionism, we sympathize with and support each other; in the development of economic cooperation, we help each other and meet each other's needs. Facts prove that Sino-Pakistan friendship based on the five principles of peaceful co-existence has a broad prospect of development.

... The Pakistan government and people explicitly oppose the plot of creating "two Chinas" and stand for the restoration to the People's Republic of China of its legitimate rights in the United Nations and the expulsion of the Chiang Kai-shek clique.

The Chinese government and people will, as always, firmly support the Pakistan government and people in their just struggle to safeguard national independence and oppose foreign aggression and interference, and firmly support the Kashmiri people in their just struggle for the right of self-determination. I am deeply convinced that the strengthening of Sino-Pakistan friendship is in accord with the fundamental interests of our two peoples and conducive to the Afro-Asian people's common cause of unity against imperialism.

Kuo Mo-jo, Vice Chairman, NPC Standing Committee:

There exists a profound traditional friendship between the peoples of China and Pakistan. In recent years, thanks to the common efforts of our two governments and peoples, the friendly relations and cooperation between China and Pakistan have continuously developed and grown stronger....

Since-Pakistan friendship is based on the five principles of mutual respect for each other's sovereignty and territorial integrity, mutual non-aggression, non-interference in each other's internal affairs, equality and mutual benefit and peaceful co-existence; it grows in the struggle against the aggression and interference by imperialism and expansionism and is in accord with the fundamental interests of the peoples of China and Pakistan. The Pakistan government and people firmly oppose the "two Chinas" plot, actively support the restoration of China's legitimate rights in the United Nations and have worked to safeguard and strengthen Sino-Pakistan friendship. We express deep thanks for all this.

Of late, His Excellency President Yahya Khan has once again stressed that friendship with China is an important factor in the foreign policy of Pakistan. On behalf of the Chinese government and people, I reaffirm that it is the Chinese government's unswerving policy to continue to develop friendly and good-neighborly relations with Pakistan on the basis of the five principles of peaceful coexistence. Together with the Pakistan government and people, we will as always, make joint efforts to safeguard and promote Sino-Pakistan friendship. We firmly support the Pakistan government and people in their just struggle to safeguard state sovereignty and oppose foreign aggression and interference and firmly support the Kashmiri people's just struggle for the right to self-determination. We are deeply convinced that Sino-Pakistan friendship can stand the test of time. No one can ever succeed in his wild attempt to sabotage the friendly relations between China and Pakistan.

Philippines

Jen-min Jih-pao Commentary:

One of the striking features of the revolutionary mass movement in the Philippines is that it has a clear-cut stand and its spearhead is directed at the colonial rule of US imperialism in the Philippines. The Philippine people strongly demand that all the unequal treaties between the United States and the Philippines be abolished, US military bases be dismantled and the US aggressor troops and the so-called "Joint Advisory Group" be withdrawn.... In their struggle the Philippine people have come to realize more and more clearly that US imperialism is the most ferocious enemy of the Philippine people and that only by overthrowing the colonial rule of US imperialism can they achieve genuine national independence and liberation....

The violent upsurge of the anti-US storm of the Philippine people is an inevitable result of the long cruel domination by US imperialism....

US imperialism has all along lauded the Philippines as its "democratic showcase" in Asia. This is a sheer deceptive lie! It is not "democratic showcase" at all but a "showcase" of barbarous US imperialist aggression against and enslavement of other nations. Now, the Philippine people have risen up and are determined to smash such criminal "showcase" of US colonialism and to shake off the iron chains put round their necks by US imperialism. The raging revolutionary flames throughout the Philippines are bound to bury the US aggressors thoroughly.

Tanzania

Chi P'eng-fei, Vice Minister of Foreign Affairs:

The victories won by the Tanzanian people on their road of advance are a great encouragement to the Afro-Asian people's struggle against imperialism.

In the past year, new fruits have been achieved in the friendly relations and cooperation between our two countries in the political, economic, cultural and other fields. In the new year the Tanzanian people and other African people will certainly win new victories in their struggle against imperialism and new progress will surely be made in the fraternal friendship between the Chinese and Tanzanian peoples.

United States

CCP Central Committee:

The nature of US imperialism will never change and, though it has suffered disastrous defeats in its war of aggression in Vietnam, it will never abandon of its own accord its rabid ambitions to occupy South Vietnam by force. The Nixon administration is pushing its counterrevolutionary dual tactics with redoubled efforts, chanting incantations for "peace" and playing the trick of "troop withdrawal" from South Vietnam on the one hand and doing its utmost to carry out so-called "de-Americanization" and "Vietnamization" of the Vietnam war on the other, in order to hoodwink the people of the world and achieve its criminal objective of occupying South Vietnam forever by force.

New China News Agency:

US imperialist chieftain Richard Nixon delivered to the US Congress on January 22 his first State of the Union Address since he took office, according to Washington reports. The address shows that Nixon is unable to produce any solution for the terrible mess both at home and abroad. It surpasses all the State of the Union Addresses of the previous White House bosses in its gloomy tone and emptiness.

...He said: "We have developed an historic new basis for Japanese-American friendship and cooperation, which is the linch pin for peace in the Pacific." What he meant by "the linch pin" is to revive Japanese militarism in an intensified manner so as to serve as a US imperialist tool for suppressing and enslaving the Asian peoples. Such ambitions of US imperialism and the Japanese reactionaries should arouse the greatest vigilance of the Asian peoples. In his address Nixon further expressed the determination to step up US collusion and contention with Soviet revisionist social-imperialism. He asserted that "if we are to have peace in the last third of the twentieth century, a major factor will be the development of a new relationship between the United States and the Soviet Union." This runs in a continuous line with the ambitions of US imperialism and Soviet revisionism to dominate and divide the world in the 1960's.

....

Nixon's address is a piece of excellent teaching material by negative example. It enables the people of the world, the American people included,

to see more clearly the paper tiger nature of US imperialism.... Nixon's address is a mere scrap of paper; it can never save US imperialism from its doom.

Jen-min Jih-pao Editorial:

At present, US imperialism has suffered serious defeats in its war of aggression against Vietnam, but its aggressive nature will never change. After taking office, the Nixon administration has been carrying on with its counterrevolutionary dual-tactics in an attempt to save itself from defeat. While dragging out its war of aggression against Vietnam by expanding and equipping the South Vietnamese puppet troops and pushing the so-called "de-Americanization" of that war, it has stepped up political deception and played with the trick of "troop withdrawal" from South Vietnam. Of late, Nixon talked glibly about bringing "an end to the war in Vietnam," striving for "a just peace," etc. All this is sheer humbug aimed at inveigling the Vietnamese people into laying down their arms and accepting humiliating terms of "peace" so that the US aggressors can hang on in Vietnam and realize its criminal scheme of perpetuating the division of Vietnam and the forcible occupation of Southern Vietnam.

("Warm Greetings to the Vietnam Workers' Party on the 40th Anniversary of Its Founding," Jen-min Jih-pao, February 3, 1970--SCMP 70-06 [4595]/101-103)

Jen-min Jih-pao, Chieh-fang-chün Pao Commentator:

Aggressive by nature, US imperialism has been consistently hostile to the great Chinese people. Since coming to power, the Nixon government has stepped up its counterrevolutionary double-dealing tactics, putting on the look of a hypocrite and harping on its time-worn theme of "peace" while simultaneously continuing to carry out military threats and war provocations against our country. This latest sending of a military pilotless high-altitude reconnaissance plane to intrude into China's air space is new evidence of the Nixon government's crime in stubbornly pursuing the policy of hostility to the People's Republic of China.

...We must exert still greater efforts in strengthening the unity between the army and the people and between the army and the government, raise our revolutionary vigilance a hundredfold, firmly foster the concept of keeping vigilant at all times, and make full preparations for a war of resistance to aggression, mentally and materially. Should US imperialism and

social-imperialism dare to invade our great socialist motherland, we will resolutely drown them in the ocean of people's war.

Lin Piao, Minister of National Defense:

US imperialism has suffered crushing defeat in its war of aggression against Vietnam, but its aggressive nature will never change. Since it came to power, the Nixon government has been pushing its counterrevolutionary dual tactics ever more openly. While energetically "Vietnamizing" its war in Vietnam, it is chanting "peace" and playing trick of "withdrawal of troops" so as to deceive the people of the world and realize its wild ambition of perpetuating its occupation of South Vietnam and dividing the Vietnamese nation. In the face of the well-tempered Vietnamese people, however, all the intrigues of US imperialism and its accomplices are doomed to failure.

Jen-min Jih-pao Commentator:

Of late, US imperialism has been vigorously expanding its war of aggression against Laos.... All these facts showed that US imperialism will never abandon its politics of aggression and war against Asia and that it doggedly persists in its aggression against Vietnam, Laos and the whole Indo-China. The aggressive nature of US imperialism will never change.

Since Nixon assumed power, he has talked glibly about "preservation of peace," "realization of enduring peace" and so forth.... The Nixon Administration has intensified the war of aggression against Laos as an important measure to coordinate with the so-called "Vietnamization" of its war of aggression against Vietnam and as an important part of the US imperialist criminal scheme of aggression against the whole Indo-China.

... The Nixon administration is intensifying its counter-revolutionary dual tactics in Laos and Vietnam. However, both its political deception and military adventure are for the purpose of eliminating the revolutionary forces, and committing aggression against and enslaving the people of Laos, Vietnam and the rest of Indo-China.

US imperialism has suffered a disastrous defeat in its war of aggression in Vietnam. Now it is expanding its war of aggression in Laos. This will only lead to the further tightening of the noose round its own neck.

Li Hsien-nien, Vice Premier:

Recently Nixon kept clamoring that the United States would continue to occupy the Middle East, continue to arm Israel and continue to commit aggression against the Arab countries in the 1970's. Only a few days ago, US imperialism instigated Israel to drive the 300,000 Palestinian people out of the Gaza Strip in a vain effort to perpetuate Israel's occupation of this Arab land. This is a new step taken by US imperialism in attempting to strangle the revolutionary struggle of the Palestinian people, and a new crime committed by US imperialism. The Palestinian people and the people of the Arab countries will never tolerate it.

...No matter what tactics the US imperialists may employ, they will not be able to prevent the people of the Arab countries and the Palestinian people from winning final victory in the struggle against imperialism.

Chinese Foreign Ministry's Statement:

US imperialism has already suffered disastrous defeat in its war of aggression against Vietnam. The Nixon government is now resorting to the intensification of its war of aggression against Laos as an important measure to coordinate with the "Vietnamization" of its war of aggression against Vietnam. This is an important component of its criminal scheme in nakedly intensifying its aggression and intervention in Indo-China. The numerous crimes committed by US imperialism in Laos and the rest of Indo-China fully prove that it will never change its aggressive nature and designs. US imperialism is the root cause of all aggression, intervention and subversion in Indo-China and the implacable enemy of the Indo-Chinese peoples.

The Chinese government and people are closely watching the development of the whole series of grave events in which US imperialism is stepping

up intervention and the expansion of its war of aggression in Laos, Cambodia and other parts of Southeast Asia.

USSR

Chinese Embassy in the Soviet Union:

Your official news agency Tass, your press and broadcasting stations, seizing on the opportunity of covering the recent activities of US Vice President Agnew in Asia, have deliberately coordinated with US imperialism in its plot of creating "two Chinas." We warned you against this but you turned a deaf ear to our warning and carried out political provocation against us once again. This fully showed that you oppose China deliberately. We express our indignation over this to the Soviet government and lodge a protest with it.

Taiwan is an inseparable part of the sacred territory of the People's Republic of China. There is only one China in the world, namely, the People's Republic of China. Your criminal plot to coordinate with US imperialism in creating "two Chinas" will never be realized.

It should be pointed out that it is by no means accidental that the Soviet revisionists have recently coordinated with US imperialism repeatedly in its plot of creating "two Chinas." It is a component part of the new anti-China campaign they are stirring up.

Brought up under the teachings of the great Lenin and having a glorious revolutionary tradition, the Soviet people have a traditional revolutionary friendship for the Chinese people. All kinds of criminal actions hatched by Soviet revisionism against China run completely counter to the will of the Soviet people and will be firmly opposed by them. The Soviet revisionist social-imperialists who are bent on being hostile to the 700 million Chinese people armed with the invincible Mao Tsetung thought will certainly reap the bitter fruit of their own sowing.

Jen-min Jih-pao Editorial:

To realize its wild ambition of struggling for hegemony and re-dividing the world with US imperialism, the Soviet revisionist renegade clique has all along been colluding and, at the same time, contending with US imperialism in a vain attempt to sabotage the Vietnamese people's war against US imperialism and for national salvation. So did Khrushchev and it is all the more so with Brezhnev and company. They have been nakedly engaged in the plot of sham support but real betrayal and have made dirty deals privately with US imperialism, in a futile attempt to stamp out the raging revolutionary flames of the Vietnamese people and ruin the fruits

of victory of the Vietnamese people's revolution. Numerous facts show that the Soviet revisionist renegade clique and US imperialism are jackals of the same lair and the common enemy of the Vietnamese people and the people throughout the world.

Vietnam

Wang Yu-p'ing (王幼平), Chinese Ambassador to DRVN:

Twenty years ago, diplomatic relations were established between our two countries. This was the outcome of the protracted revolutionary struggles of our two peoples. In our common struggle against imperialism in the past twenty years, our two countries and our two peoples have supported and encouraged each other so that the militant friendship of our two peoples "who are both comrades and brothers" have been consolidated and developed steadily.

Right now, the heroic Vietnamese people are persisting in the great war against US aggression and for national salvation. The iron fists of the Vietnamese people have badly battered US imperialism. The tremendous victories scored by the Vietnamese people in the war against US aggression and for national salvation have laid the foundation for realizing the sacred aim of liberating the south, defending the north and reunifying their fatherland, and have made great contributions to the struggle of the people of the whole world against US imperialism. "The 700 million Chinese people provide a powerful backing for the Vietnamese people; the vast expanse of China's territory is their reliable rear area." The Chinese people will always follow this teaching of Chairman Mao and resolutely support the Vietnamese people in carrying the war against US aggression and for national salvation through to the end.

Han Nien-lung (韩念龙), Vice Minister of Foreign Affairs:

In their protracted struggle against imperialism, the people of China and Vietnam have always supported and encouraged each other and forged a profound friendship. This tremendous friendship based on proletarian internationalism is time-tested. The conspiratorial activities of imperialism and social-imperialism to sabotage the friendship between China and Vietnam is bound to end in ignominious defeat....

The Chinese people armed with Mao Tsetung thought and steeled in the great proletarian cultural revolution will, as always, resolutely support and aid the fraternal Vietnamese people in carrying their war against US aggression and for national salvation through to the end.

CCP Central Committee:

We believe that the heroic Vietnamese people who have a tradition of heroic revolutionary struggles, under the leadership of the Vietnam Workers' Party and following President Ho Chi Minh's teaching, as contained in his will, to "be resolved to fight against the US aggressors till total victory," by persevering in protracted war, in maintaining independence and keeping the initiative in their own hands and in relying on their own efforts, will certainly be able to smash all the intrigues and plots of the reactionary forces which vainly attempt to sabotage Vietnam's war against US aggression and for national salvation, will certainly be able to overcome all kinds of difficulties and barriers on their road of advance, and drive US imperialism out of the land of Vietnam lock, stock and barrel, liberate the south, defend the north and then reunify the motherland.

In the revolutionary struggle over a long period, the two parties and two peoples of China and Vietnam have supported each other and shared the weal and woe. Every victory won by the Vietnamese people in their anti-imperialist struggle is a powerful support to China's revolutionary struggle. Fostered by Chairman Mao Tse-tung, the great leader of the Chinese people, and by President Ho Chi Minh, the great leader of the Vietnamese peoples, the close fraternal friendship and militant unity between the two parties and two peoples of China and Vietnam can stand any test. "The 700 million Chinese people provide a powerful backing for the Vietnamese people; the vast expanse of China's territory is their reliable rear area." The Chinese Communist Party and the Chinese people will follow this teaching of the great leader Chairman Mao's and resolutely support the Vietnamese people in carrying their war against US aggression and for national salvation through to the end.

China and Vietnam are neighboring countries as closely related as the lips and the teeth. The two parties and the two peoples of China and Vietnam have always supported each other in their protracted common struggle against imperialism. The Vietnamese people's struggle is our struggle and their victory our victory. The revolutionary friendship and militant unity between our two parties and two peoples established on the basis of proletarian internationalism have been tempered and developed in the common revolutionary struggle and can stand all tests.

Wen Yü-ch'eng (溫玉成), Deputy Chief of the General Staff of the PLA:

We firmly believe that under the leadership of the South Vietnam National Front for Liberation and the Provisional Revolutionary Government of the Republic of South Vietnam, the heroic people and People's Liberation Armed Forces of South Vietnam will certainly surmount all kinds of difficulties on their road of advance and wrest final victory in the war against US aggression and for national salvation by uniting closely and pooling their wisdom and strength, displaying the revolutionary spirit of being "determined to fight and win," and persevering in a protracted war, in maintaining independence and keeping the initiative in their own hands, and in self-reliance.

China and Vietnam are close neighbors joined by mountains and rivers. The people and the armed forces of our two countries have forged a firm, militant friendship in common struggles against imperialism. Every victory of the Vietnamese people in their anti-imperialist struggle is a strong support for China's revolutionary struggle. We always look upon our support for the Vietnamese people in their anti-US imperialist struggle as our internationalist duty. The Chinese people and the Chinese People's Liberation Army, armed with Marxism-Leninism-Mao Tsetung thought and steeled in the great proletarian cultural revolution, are determined to follow the great leader Chairman Mao's teachings, and resolutely support the
